End of program after lunch (14:00 hrs)

For partners we are planning an interesting program which is still under construction.

The private auction we offer on Sunday is something new. We call upon your active participation in preparing the auction. The idea is that participants put some pieces at auction, preferably interesting pieces with a story. This 'save the date' gives you enough time to think about interesting pieces fit for auction. Further details will follow in the final invitation

Due to the uncertainty of tariffs for 2023 we will be sending the final program and invitation around half of November. That is the moment you can pre-register for the XVI ECPS. Final registration will be confirmed after payment; not later than the first week of January 2023.

Hope to see you in Amsterdam!
